To partake in the Egg Share Scheme, you would need to have an initial Consultation to see if you fit the Clinic's criteria. You must be under 35 years of age, in good health with no family history of illness. You must also be a non-smoker.

If you wish to proceed, you will be asked to pay a Registration Fee which holds a place for you within our Scheme. This is deductible from your treatment charges in the future. You would then need to attend for an appointment with our Nurse Coordinator who will provide you with full details of how our Egg Sharing Scheme operates and arrangements made for assessment of your suitability to participate. At this stage you would be scheduled for a series of tests and counselling for which you would be charged the current IVF Egg Share Donor fee (less your registration fee). Up until that point we would not be able to confirm whether you could partake in the Egg Share Scheme.

You would be commenced on the Pill until we have your results and could tally your cycle with a suitable recipient.

The cost of IVF and drugs would then be covered by the unit but, should you require ICSI or freezing, you would be liable for the costs.

If you require any further information, please do not hesitate to contact the Clinic on 01892 614110.
